* The ratio of net charge-offs to average loans (annualized) was 0.27% for the three months ended September 30, 2025. This elevated ratio of net charge-offs to average loans (annualized) was due to one loan relationship charge-off for \$21.5 million during the third quarter of 2025. Excluding this individual charge-off, the net charge-off ratio would have been 0.09% for the third quarter of 2025.
